

my pal, luke

My Pal, Luke Endorsements

My Pal, Luke has been viewed by children across the country. Below are some endorsements *My Pal, Luke* has received from caregivers:

"I just discovered your videos and can't wait for whatever comes next in the series. I am a School Counselor in Alexandria, VA and my team of student helpers, called SST are made up of Social Worker, Psychologist, and School Nurse, put together a Coping Skills Bitmoji room for kids to access while in quarantine. And guess whose video we just added to the shelf next to the fish tank --- Luke the Dog! The SST folks all LOVED it, and so will our students. It is a super fun way to help little kids understand quarantine and Corona. So, thanks for sharing and caring." – Lisa Falleroni, School Counselor, Alexandria City Public Schools

"I am an instructor in a teaching pod to assist students who are learning virtually. On a break, I showed my students a My Pal, Luke video. They all loved it and it proved to be a comforting release from their online learning." - Lori G Sacco, Learning Pod Instructor

"I am a clinical child psychologist and I've watched how Covid-19 has presented so many challenges for children and their parents. What children never forget how to do is play, even in the toughest of circumstances. And My Pal, Luke helps them do exactly that, with the added benefit of soothing and educating our children who are now pandemic on-line learners. What a great gift to all of us." - Dr. Diane Ehrensaft, Ph.D., Developmental and Clinical Psychologist, UCSF
